Deluxe & Deluxe Clean-Face Series

Deluxe Models

- 18,000 Btu, 32-inch, 5-piece Log Set
- 20,000 Btu, 36-inch, 5-piece Log Set
- 25,000 Btu, 42-inch, 7-piece Log Set
- 28,000 Btu, 48-inch, 7-piece Log Set

Deluxe Clean Face Models

- 18,000 Btu, 32-inch, 7-piece Log Set
- 20,000 Btu, 36-inch, 6-piece Log Set
- 25,000 Btu, 42-inch, 7-piece Log Set

Deluxe models feature our Contour tube-style burner, designed to complement the hand-painted ceramic fiber log set, and produce a natural dancing flame.

Choose a conventional Deluxe Madison model – with louvers and available trim kits – or our Clean Face Deluxe Fireplace with a discreet air distribution channel that eliminates the look of louvers, yet still allows you to operate the optional blower.

Both feature large heat-resistant, tempered glass windows that provide an unobstructed view to the log set.

Deluxe models require just 16 inches of depth; Deluxe Clean-Face models require 17-3/4. Both use 4 x 6-5/8 venting, making them ideal for applications where wall-cavity space is tight.

Deluxe models are offered in Millivolt (with standing pilot) and in Intermittent Pilot (with battery backup). Both are available in Propane or Natural Gas.

Both the Deluxe and Deluxe Clean Face Models share optional liner offerings – Aged Brick, Herringbone, Stacked Stone, and Black Reflective.

Deluxe fireplaces may be installed in the wall or in a cabinet or corner mantel.

Deluxe Clean Face systems are designed for in-wall installation. Tile or other non-combustible material may be used to conceal the outer edge of the fireplace to provide a true built-in appearance.
Madison Premium Models

• 25,000 Btu Nat, 36-inch, 4-piece Log Set, 4 x 6 5/8 Venting
• 27,000 Btu LP, 36-inch, 4-piece Log Set, 4 x 6 5/8 Venting (Top-Vent Only)
• 28,000 Btu, 42-inch, 4-piece Log Set, 5 x 8 Venting
• 30,000 Btu, 48-inch, 4-piece Log Set, 5 x 8 Venting

The Premium Madison includes a tempered glass view window and a four-piece log set, mounted atop our legendary Slope Glaze Burner for a rich flame pattern within a taller, deeper log stack that complements the deeper fireplace (20 inches).

Premium Madison fireplaces are offered in Millivolt models (with standing pilot), in Intermittent Pilot models (includes battery backup), and in Multi-Function Remote models. Our IP and Multi-Function Remote models eliminate the standing pilot for even greater efficiency and energy savings.

Multi-Function Remote Models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature. These models can operate with a standing pilot, to provide heat during a power outage.
Luxury Series

Madison Luxury 42 Direct-Vent Fireplace shown with Banded Brick Liner.

Madison Luxury Direct-Vent Fireplace (DVX42FP) with Banded Brick Liner, Custom Mantelshelf and Slate Tile Surround.

Madison Luxury Models

• 35,000 Btu Nat, 36-inch, 13-piece Log Set, 4 x 6 5/8 Venting (Top-Vent Only)
• 30,000 Btu LP, 36-inch, 13-piece Log Set, 4 x 6 5/8 Venting (Top-Vent Only)
• 37,500 Btu Nat, 42-inch, 13-piece Log Set, 5 x 8 Venting (Top-Vent Only)
• 35,000 Btu LP, 42-inch, 13-piece Log Set, 5 x 8 Venting (Top-Vent Only)

Madison Luxury models feature ceramic glass (for better heat transfer), a dimmer-controlled accent lamp inside the fireplace, an automatic blower, and an intricately detailed 13-piece log set atop the Slope Glaze Excess Burner for a fuller ember bed. And with their larger flame, Luxury fireplaces produce more heat. Choose a liner – in Brick, Stone or Black Reflective.

Luxury models are offered in Millivolt (with standing pilot), Intermittent Pilot, and in Multi-Function Remote models. Our IP and Multi-Function Remote models eliminate the standing pilot for even greater efficiency and energy savings. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature. In the event of a power outage, these fireplaces can operate with a standing pilot to provide uninterrupted heating.
Madison Direct-Vent Multisided Fireplace Systems

Heater Rated at 35,000 Btu input, the Madison direct-vent system draws in outdoor air to support combustion and sends its exhaust directly outdoors, and must be located in a position that allows venting through an exterior wall or through the roof. Multi-sided Madison fireplaces install using readily available 4 x 6 5/8 direct-vent pipe.

Madison systems include a built-in 24-inch Slope Glaze Vista Burner, large tempered-glass viewing windows, Banded Brick Liner, ceramic fiber floor liner, dimmer controlled lighting, and glowing embers. The 24-inch Raleigh Log Set and barrier screens must be ordered to complete the fireplace. (Doors are not available on multisided fireplaces.)
Options & Accessories

Controls
Take charge of your Millivolt or IP fireplace with a battery-operated remote control, thermostat remote, electric remote control, wall thermostat, or wall switch.

Accessories

Your Direct-Vent Fireplace requires a barrier to protect against touching the hot glass. Choose a simple Barrier Screen for an ultra-clean look or opt for the Door Frame with Barrier Screen plus Hinges to accept an operable door set. Screens, Frames, and Doors are available in Matte Black only.

Please note: a Barrier Screen is already included in the Deluxe Clean-Face models.

Decorative Doors – include handles

Matte Black Only. Requires Door Frame with Barrier Screen

---

**Warranty for All Models**

10-year limited warranty on combustion chamber; limited lifetime on glass. All other parts carry a 3-year limited warranty. All Remote Controls carry a 1-year limited warranty.

All direct-vent fireplaces manufactured after January 1, 2015, must be installed with a barrier screen to prevent accidental contact with hot glass. Depending on the fireplace model, the barrier screens are available separately or incorporated into decorative fronts. See owner’s manual for details. Refer to your Owner’s Manual for complete installation and safety information.
